

JEM CARLO G. AUSTRIA

JUNIOR FULL-STACK DEVELOPER | OFFLINE-FIRST SPECIALIST

Mangatarem, Pangasinan, PH | zani31349@gmail.com | linkedin.com/in/jemcarlo-austria-45bb77421

SUMMARY

Diligent Junior Developer building offline-first, resilient applications engineered for low-cost hardware and real-world community utility. Solid foundation in Python, FastAPI, React 19, and SQL with deployed production apps.

EDUCATION

Pangasinan State University 2023 - 2026 (Graduating)
Bachelor of Science in Information Technology | Major in Software Development
Core: Data Structures, Algorithms, Systems Architecture, Relational Databases, Linux Systems

TECHNICAL SKILLS

Languages:
Frameworks: - freeCodeCamp (Credential ID: fcc-rwd-2024-8842, 2024)
Data & Storage:
Practices: - Cisco Networking Academy (Credential ID: cisco-cyber-2025-3310, 2025)

PROJECTS & DEPLOYMENTS

- HackerRank (Credential ID: hr-py-2025-7719, 2025)
StudyStack - Offline-First Flashcard & Course Reviewer 2026 | React, Supabase

- Architected local-first card store in IndexedDB that synchronizes bidirectionally with Supabase upon connectivity.
- Client-side spaced repetition algorithm ensuring zero latency during study sessions on rural bus commutes.
- Deployed on Vercel and actively used by 40+ classmates with zero network downtime.

Barangay Records - Resident Registry & Clearance Automation System 2025 | FastAPI, Postgres
- Replaced 6 physical paper logbooks with an indexed search-as-you-type resident database.
- Reduced certificate preparation and verification turnaround from 15 minutes down to 90 seconds.
- Implemented role-based staff authentication and automated PDF certificate generation deployed on Render.

Sari-Sari POS - Offline Tablet Point of Sale & Credit Tracker 2025 | Python, SQLite
- Developed low-resource touchscreen retail POS running smoothly on budget 3,000 PHP Android tablets.
- Built direct ESC/POS protocol driver over Bluetooth to print physical thermal receipts with zero internet.
- Replaced customer debt notebooks with automated running balance ledgers and daily SQLite snapshots.

VERIFIED CERTIFICATIONS

Responsive Web Design
Introduction to Cybersecurity
Python (Basic) Certificate

Note: Available immediately for remote Junior Software Engineer positions. Timezone: UTC+08 (overlap EU/US).
