

JEM CARLO AUSTRIA

Bachelor of Science in Information Technology

jemcarlo46@gmail.com | 09538563123 | Mangatarem, Pangasinan

PROFESSIONAL SUMMARY

I am a motivated BSIT student with a strong foundation in backend development and web technologies. I'm skilled in using Python, FastAPI, Supabase, and SQLite to build functional systems. I recently led the development of a digital cultural map for my capstone project, where I managed database design and system architecture. I'm eager to start my career, tackle real-world coding challenges, and contribute to team projects as a junior developer.

WORK EXPERIENCE

IT Intern | Local Government Unit

February 2026

Local Civil Registry

- I handle data management by encoding important records like marriage certificates for the Local Civil Registry.
- I support the office by using my computer skills to keep digital files organized and accurate.

ACHIEVMENTS

- Capstone Project Development: I designed and built an Interactive Digital Cultural Map and Local Tourism Information System for my municipality.
- Technical Proficiency: I have developed a strong skill set in Python, FastAPI, Supabase, SQLite, React, and Tailwind CSS.
- Automation Focus: I created custom AI agents to manage software development tasks like planning, documentation, and coding.
- Practical Experience: I completed my internship at a Local Government Unit, where I handled data management and digital record-keeping for the Local Civil Registry.

EDUCATION

Primary

- Mangatarem I Central School.

Graduated in 2016

Collage

- Binalatongan Community College

BSIT Student, 2024–Present

Secondary

- Mangatarem National High School

Graduated in 2022

SKILLS

- Python & Backend Development
- FastAPI & Database Management (Supabase, SQLite, Mysql)
- Web Design (Next.js(currently learning), CSS, Bootstrap)
- Version Control (Git, GitHub, VSCode)
- AI Automation (n8n) & Development
- Data Management & Record-Keeping
